Services Catalog

LIA-S

High-impact digital solutions: custom web development, security audits, and scalable application architecture.

Our Philosophy

Built from the ground up

The «Lías» is the oldest stratum of the Jurassic period: the bedrock upon which everything that followed was built.

At LIA-S, we apply this exact structural logic to software engineering. What endures is not built from the surface, but from a solid, secure, and optimized architecture. We create digital ecosystems designed for sustained growth.

Custom Web Development

Corporate Website

€600 - €900

Ideal for businesses that require an immediate, aesthetically pleasing digital presence optimized for lead conversion.

- Responsive design (Cross-device)
- Structural speed optimization
- Integrated contact & lead systems

Complex Web / E-commerce

€1,200 - €2,500+

Platforms engineered to scale, manage high traffic volumes, and support advanced business logic.

- Relational database architecture
- Secure payment gateway integration
- Custom administration panels

Security Consulting

Comprehensive protection of data infrastructures and safeguarding of user privacy through rigorous technical analysis.

Structural Audit (€250 - €400)

Exhaustive review of the source code and web architecture, culminating in a detailed vulnerability report.

Defensive Implementation (€500 - €800)

Direct execution of security patches, server hardening, and implementation of encryption protocols.

Application Development

Software engineering for web and mobile ecosystems, utilizing modern technologies to guarantee high performance and maintainability.

PROJECT SCOPE	ESTIMATED INVESTMENT	PRIMARY TECHNICAL FOCUS
MVP / Base App Development	€1,800 - €3,500	Agile market validation. Clean interfaces, core functionalities, and rapid deployment.
Complex Application	From €4,000	Robust architectures, custom API development, high concurrency, and global scalability.
Technology Consulting	Upon request	Tech stack evaluation, legacy code refactoring, and infrastructure planning.

SEO & Web Performance

Performance Audit

€200 - €400

One-time technical intervention to minimize latency and maximize Core Web Vitals metrics.

SEO Maintenance

€150 - €300 / mo

Continuous monitoring, iterative indexing optimization, and sustained improvement of organic rankings.

Code Refactoring

Custom Quote

Complete restructuring of obsolete platforms that penalize performance, security, and corporate image.
